**Writing** Bookmark Reviews is a voluntary, but fun, way to help others find out, if a book, audiobook, or movie might be of interest to them, too.

**Please** include a very brief statement about **why you like** the item. It doesn't even have to fill all the lines provided.

**When** you return the item, just stick the bookmark in the card pocket. We'll leave the review for others to read.

**Library users** of all ages may write reviews. Very young children might need a little help with the writing. That's OK.

**Including** your name is optional.
